LOOSE LEAF TEA MENU

A SELECTION OF LOOSE LEAF TEA FROM THE ENGLISH TEA STORE

All Tea is made from the fresh leaf of the *Camellia sinensis* bush. The Classification, black, green, blue (Oolong), or white tea, is determined by how the tea leaves are picked and processed. Every stage of the tea making process contributes to the final taste, however the main difference is created by the oxidation level added to the leaves.

PU - ERH TEA

Information from: THE TEA ENTHUSIAST'S HANDBOOK BY MARY LOU HEISS AND ROBERT J. HEISS

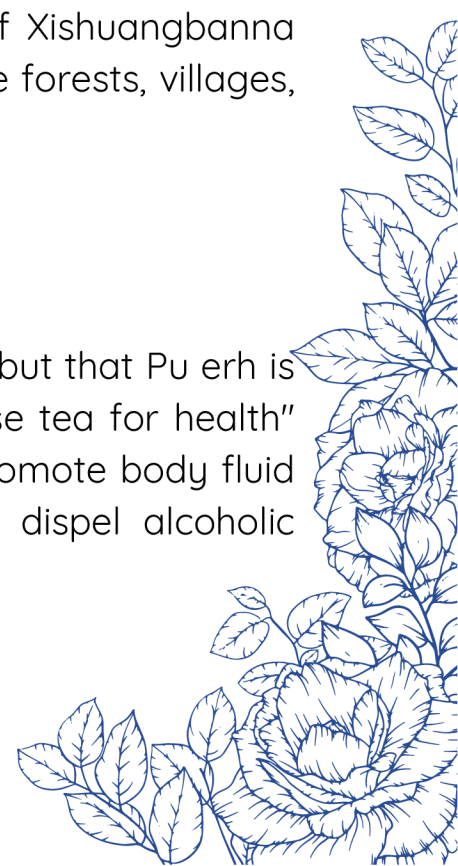

Perhaps the most exotic tea in China's vast repertoire of astonishing tea is Pu-erh. China is the only country that makes Pu-erh tea and everything about Pu-erh tea is enticing, including the place where it is made: Yunnan province in southwest China. Here, the Pu-erh tea-producing area lies in the southwest quadrant of the province and encompasses many counties in and around the tropical Xishuangbanna region.

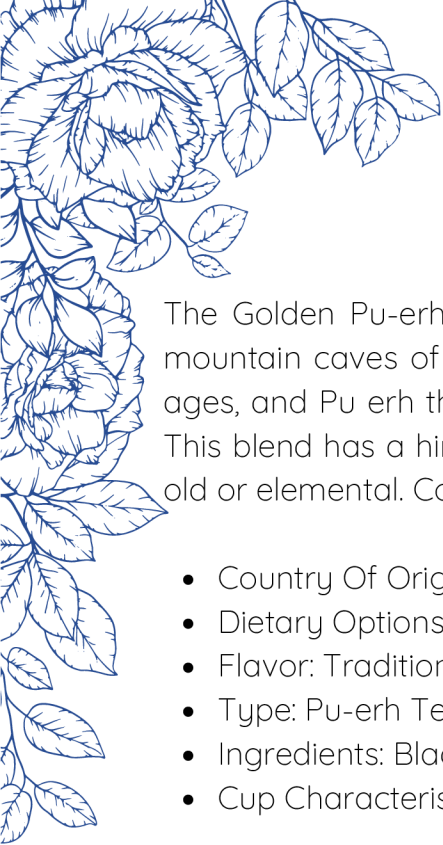

It is safe to say that if one is looking for a lifelong obsession in the world of tea, then look no further than Pu-erh. Pu-erh offers tea enthusiast many tastes: new Pu-erh, vintage Pu-erh, sheng Pu-erh (natural post-processing fermentation) or shou Pu-erh (artificial fermentation).

Pu-erh is China's famous fermented tea. Yes, fermented it is, and gloriously so. At the root of traditionally made Pu-erh is a host of bacteria, molds, and fungi (*Penicillium chrysogenum*, *Rhizopus chinensis*, *Aspergillus clavatus*, to name a few) that thrive in the moist, tropical weather of Xishuangbanna and live in the air and on the fresh tea leaf throughout the forests, villages, and tea factories in Xishuangbanna.

Information from the English tea store.

A study in Japan indicated that all teas lower cholesterol, but that Pu erh is more effective than green tea. Some followers of "Chinese tea for health" believe that Pu erh can "cut the grease, help digestion, promote body fluid secretion, quench the thirst, invigorate the spleen, and dispel alcoholic toxins."

GOLDEN PU-ERH TEA - LOOSE LEAF

The Golden Pu-erh Tea blend from English Tea Store is aged for 5 years deep in the mountain caves of Yunnan, China. CHELSEA BREAKFAST

Full-bodied and rich, this flavor-packed loose leaf black tea is a stronger alternative to our English Breakfast.

We chose tea from Sri Lanka for its crisp taste and distinctive aroma, blending it with the famously brisk tea of Kenya. The result is a gutsy brew with a lingering aftertaste.

COVENT GARDEN BLEND

A fabulously floral loose leaf black tea with cascading petals and a hit of tangy apricot.

We were inspired by the sights and scents of Covent Garden market to craft this delicate blend of loose leaf Ceylon tea, layered with hints of peach and apricot. As a homage to Covent Garden's blossoming history as a fruit and flower market we've added a glorious cascade of petals, from cornflowers to bright safflowers and marigolds – it's a little cup of metropolitan paradise.
